

Got Any Fundraising Ideas???

Fundraising is a necessary function in order for our minor hockey system to be sustainable. Each year our budget runs at a deficit of approximately \$35,000. This deficit has to be raised through fundraising events and sponsorship in order to keep registration rates down.

For the past 2 years our association has held the grocery draw, which has been profitable to our association, and we think beneficial to our members and our community. It is likely that we will continue this draw.

However, if you have any new ideas for fundraising the Board would be happy to entertain them. Please forward ideas to any current executive member ASAP
